Dear Matalco customer,

Re: Absence of Radioactive Elements in Aluminum Metal – Statement of Conformity

Matalco designates that, to the best of its knowledge, the primary aluminum metal it produces is free of radioactive elements. Specifically:

1. We confirm that we do not employ any substances containing radioactive material.
2. We confirm that we do not use any secondary scrap aluminum that could contain radioactive contamination in the manufacturing of aluminum products.

Should you have any questions or require further information, please do not hesitate to contact us through Matalco's Sales or Technical Marketing department.

Sincerely,

Ashley Jacoby
